Pensar Medical™ *Negative Pressure. Positive Results.™*

Skilled Nursing Facility (SNF) and Nursing Facility (NF)

Use of WoundPro™ and WoundPro+™ Negative Pressure Wound Therapy (NPWT) Durable Medical Equipment (DME) System

When a physician orders a NPWT DME system for a Medicare beneficiary who is receiving care in a SNF (place of service 31) or in a NF (place of service 32), the consolidated billing system[i] requires the SNF or NF to rent or purchase the equipment and supplies with the payment the facility receives from the Medicare Patient Driven Payment Model (PDPM) system.

Durable medical equipment prosthetic, orthotic supplies (DMEPOS) suppliers should rent or sell the NPWT DME system to the SNF or NF. The DMEPOS supplier should not bill the Medicare Part B program for NPWT DME pumps (E2402), wound care sets (A6550), or canisters (A7000) used by Medicare beneficiaries in SNFs or NFs.

Disclaimer

The content included here is for informational purposes only; reimbursement for medical products and services is affected by numerous factors. The provider is always responsible for determining and submitting appropriate codes, charges, and modifiers for services rendered. Actual codes and/or modifiers used are at the sole discretion of the treating physician/QHP and/or facility. Providers should contact their third-party payers for specific information on their coding, coverage, and payment policies. This reimbursement content information is not intended to promote the off-label use of any product.
