- Lifetime Repairs (fees may apply)
- Live support clinical helpline

WoundPro+®

Traditional Negative Pressure Wound Therapy System

Engineered for today's wound care challenges, the WoundPro+ is Pensar Medical's next-generation traditional NPWT (tNPWT) system. It delivers greater versatility, portability, and clinical performance for managing acute, chronic, and complex wounds.

- Most trusted pump on the market
- 50% smaller than the WoundPro
- New, enhanced technology stack
- Enhanced portability
- Versatile therapy modes
- 24 hour+ battery power
- Made in the USA

Patient-Centered Design

The WoundPro+ was designed with the patient and clinician in mind. Its powerful pump handles even the most complex or heavily draining wounds, without compromise.

Compact & Lightweight

Weighs just 2.1 lbs with a small footprint (6¾" x 5¾" x 3½").

High Performance

Provides the same power and flow rate (8 L/min) as our full-size WoundPro, making it effective even for copious draining wounds.

Improved Patient Experience

Small footprint and light-weight design makes the patient's recovery process discreet, comfortable, and quiet which can help support patient adherence to therapy.

Simplified Discharge to Home

Easy-to-use and portable, helping patients return to work and daily life more quickly.

Seamless Integration

Easily fits into all healthcare settings, including acute care, skilled nursing, rehab facilities, and homecare, without compromising therapy performance.

Technology, Safety & System Intelligence

Smart Technology Tracking

Built-in usage tracking for improved billing accuracy, documentation, and compliance.

Automated System Checks

Comprehensive alarms for vacuum leaks, line blockages, full canister, and low battery.

24-Hour Battery Life

Supports mobility while ensuring consistent therapy delivery.

Clinical Features & Benefits

Three Therapy Modes

Continuous, Intermittent, and Variable-Intermittent with customizable pressure settings to provide comfort and protect the wound.

Broad Clinical Use

Suitable for surgical incisions, traumatic injuries, chronic ulcers, closed incisions, and complex wounds.

Effective Exudate Management

300 cc canister helps maintain a moist wound environment by efficiently removing excess exudate, supporting the healing process.

Accelerates Healing

Promotes wound contraction, edge approximation, granulation tissue formation, and edema reduction.
